## Good Fences Make Good Neighbors

In today's global economy, everybody is a neighbor to your business and that means some of them will not be as neighborly as you would like.

*Keeping Your Organization Secure*

**In fact some of them are best kept behind  
a well-built fence.**

**The last thing you need  
is for your fence to fail to protect you  
from unwanted entry.**

**When it comes to your business security,  
you can no longer afford to  
build it and forget it.**

**Today's business fences need to be  
built solid, strong,  
constantly monitored and re-built.**

**Computer Breakthrough, Inc.**

# **The Company Inspector**

*Keeping Your Organization Secure*

**And you need to be on constant guard  
and be equipped to handle any  
disruption in your business security.**

**That's where the Company Inspector  
comes in.**

**With CBI's Company Inspector  
you can rest easy knowing  
that your critical information is secure  
from intrusion of any kind.**

**With the Company Inspector,  
your security fence is thoroughly  
inspected for any fault or weakness.**

**Computer Breakthrough, Inc.**

# **The Company Inspector**

*Keeping Your Organization Secure*

**The Company Inspector then suggests any necessary repairs to bring you back into secure mode.**

**The unwanted neighbors on the other side of your fence are always changing.**

**So is the Company Inspector.**

**The Company Inspector protects you with the latest security measures and is continually updated as new threats are found.**

**Computer Breakthrough, Inc.**

101 Blanchard Road, Cambridge, MA 02138 (617) 354-7303

# The Company Inspector

*Keeping Your Organization Secure*

## The Company Inspector:

- Establishes and / or confirms your existing security policy
- Audits your existing systems and determines all potential weaknesses and threats
- Determines the proper steps to take to secure your perimeter
- Maintains your security according to your needs as well as mandated needs
- Protects you from both external and internal threats
- Shows you the action to take to correct any identified threats
- Provides you with security peace of mind

### The Ten Immutable Laws of Security

- Law # 1: If a bad guy can persuade you to run his program on your computer, it's not your computer anymore.
- Law # 2: If a bad guy can alter the operating system on your computer, it's not your computer anymore.
- Law # 3: If a bad guy has unrestricted physical access to your computer, it's not your computer anymore.
- Law # 4: If you allow a bad guy to upload programs to your web site, it's not your web site anymore.
- Law #5: Weak passwords trump strong security.
- Law #6: A machine is only as secure as the administrator is trustworthy.
- Law #7: Encrypted data is only as secure as the decryption key.
- Law #8: An out of date virus scanner is only marginally better than no virus scanner at all.
- Law #9: Absolute anonymity is not practical, in real life or on the web.
- Law #10: Technology is not a panacea.
